

# HEATER FOR HUNTING BLIND

## TDK 10

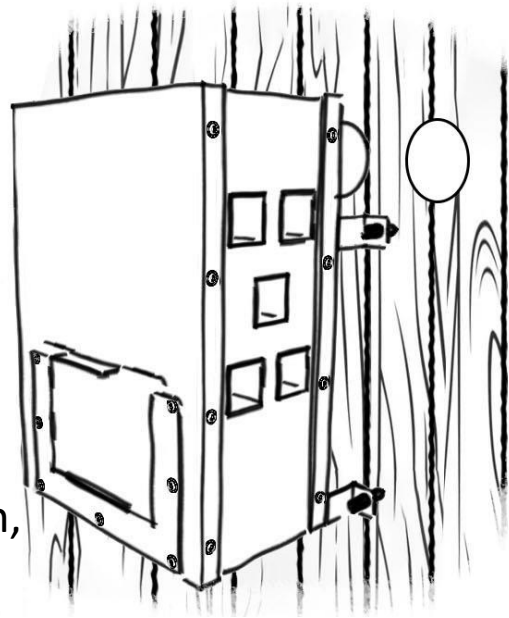

# **YOU ARE HOLDING THE FIRST HEATER FOR A HUNTING BLIND THAT:**

- 1) vents exhaust gases outside
- 2) draws in fresh air from outside
- 3) burns clean fuel with no soot or odor
- 4) is completely maintenance-free
- 5) takes up minimal space
- 6) is suitable for wall thicknesses up to 10 cm

## INSTALLATION AND OPERATING INSTRUCTIONS:

- 1) Drill a 60 mm hole for the chimney cap.
- 2) Secure using 4 screws.

The heater becomes  
very hot during operation,  
so it is recommended

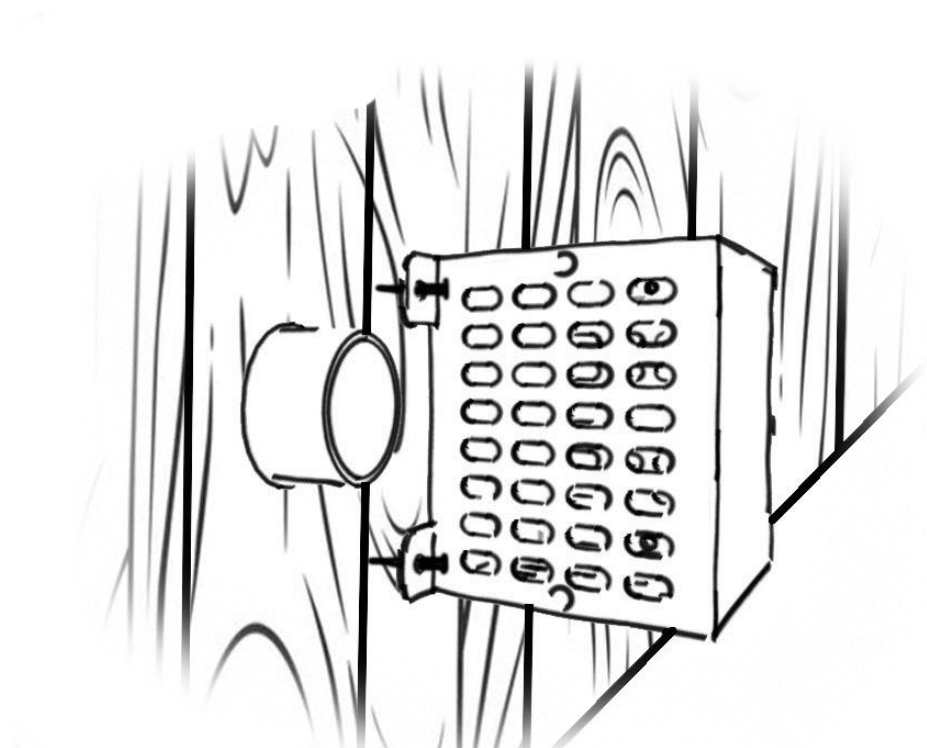

to place it in a location where you won't  
accidentally touch it while hunting!

Although the heater gets very hot, it does not  
reach ignition temperature, so there is no risk  
of it setting anything on fire.

# CHIMNEY COVER INSTALLATION

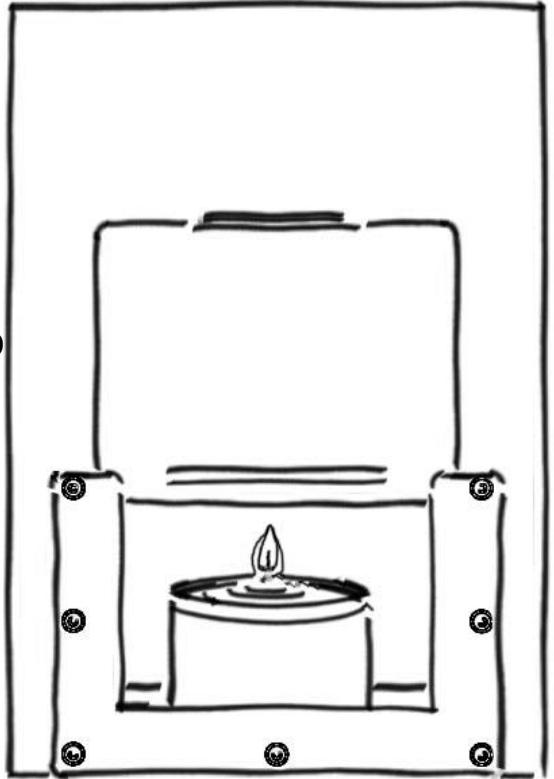

**(on the exterior):**

- 1) Ensure a minimum distance of 40 mm from the end of the chimney to the bottom of the cover.
- 2) If necessary, raise the chimney cover with spacers.
- 3) Secure with 4 screws.

## HOW TO LIGHT THE HEATER:

- 1) Open the door.
- 2) Insert fuel.
- 3) Light the wick
- 4) Allow the heater to warm up for 5 min.
- 5) Close the door.

**USE ONLY 100% DIETHYLENEGLYCOL FUEL,  
SOLD AS: CHAFING FUEL WITH WICK!**

We are not liable for damages caused by improper use, including the use of other fuel types!

## **CONTENT OF PACKAGE:**

- 1) Heater
- 2) Exterior chimney cover
- 3) 2 fuel cans (200g each)
- 4) User manual

## **SAFETY INSTRUCTIONS:**

Ensure adequate ventilation when lighting the heater with the door open.

**DO NOT TOUCH THE HEATER DURING OPERATION!** It can reach temperatures as high as 130°C.

This product comes with a 2-year warranty.
